Citizen Action/Illinois is the state's largest public interest organization. Building on over a two decades of experience, Citizen Action/Illinois is a key player in the fight for social and economic justice at the state and national levels. Citizen Action/Illinois has led campaigns for lower utility rates, fair taxes, affordable and quality health care, insurance and campaign finance reform, and stronger environmental and food safety protections. Citizen Action/Illinois works hard to hold our elected officials accountable on these issues every day in the State House and in the Congress.
